

# Vote Now: U.S. News & World Report Best Hospitals

## Step 1: Log into Doximity

- If you do not have a Doximity account, click [here](#) to register.

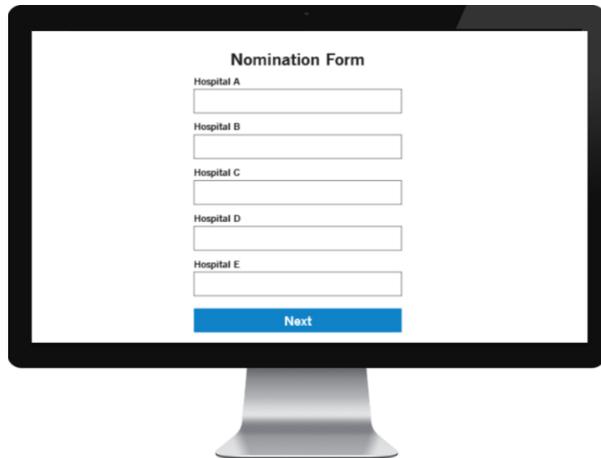

## Step 2: Navigate to the U.S. News Best Hospitals landing page

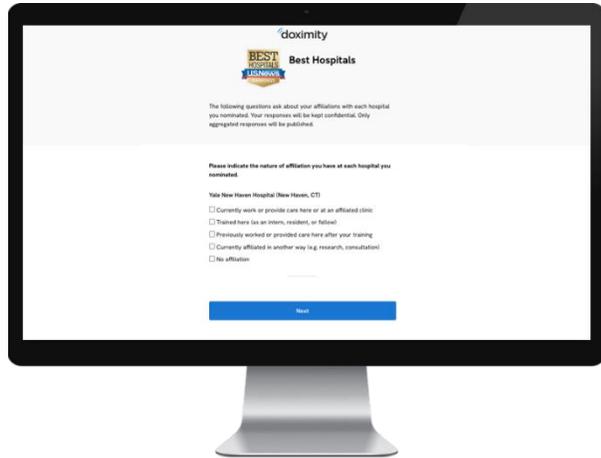

## Step 3: Select Hospitals to Nominate

- You can select up to 5 hospitals

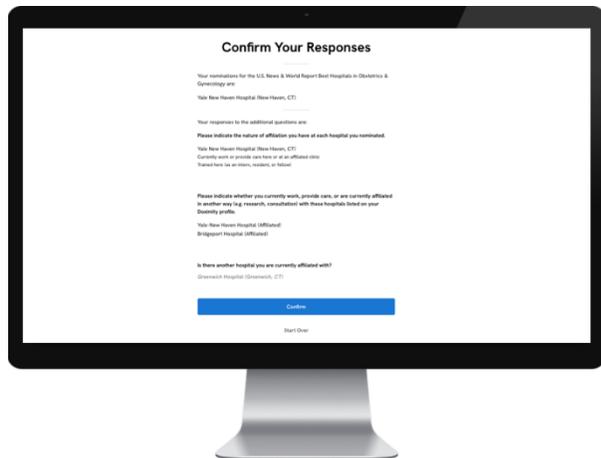

## Step 4: Provide your affiliation(s)

- Information provided will also be used to update your Doximity profile

The screenshot shows a computer monitor displaying the Doximity 'Best Hospitals' survey. The page title is 'Best Hospitals' and it features the 'BEST HOSPITALS' logo. Below the title, there is a disclaimer: 'The following questions ask about your affiliations with each hospital you nominated. Your responses will be kept confidential. Only aggregated responses will be published.' The main heading is 'Please indicate the nature of affiliation you have at each hospital you nominated.' Below this, there is a section for 'Yale New Haven Hospital (New Haven, CT)' with four radio button options: 'Currently work or provide care here or at an affiliated clinic', 'Trained here (as an intern, resident, or fellow)', 'Previously worked or provided care here after your training', 'Currently affiliated in another way (e.g. research, consultation)', and 'No affiliation'. A blue 'Next' button is at the bottom.

## Step 5: Review and confirm

The screenshot shows a computer monitor displaying the 'Confirm Your Responses' page of the survey. The title is 'Confirm Your Responses'. It lists the hospitals nominated: 'Your nominations for the U.S. News & World Report Best Hospitals in Obstetrics & Gynecology are:' followed by 'Yale New Haven Hospital (New Haven, CT)'. It then asks for confirmation of the nature of affiliation for each hospital. For Yale New Haven Hospital, it lists 'Currently work or provide care here or at an affiliated clinic' and 'Trained here as an intern, resident, or fellow'. It also asks to confirm if the user currently works, provides care, or is currently affiliated in another way (e.g. research, consultation) with these hospitals, and if so, to specify the hospital. For example, it lists 'Yale New Haven Hospital (SHoM) - Brigham Hospital (affiliated)'. It also asks if there are other hospitals currently affiliated with, listing 'Greenwich Hospital (Greenwich, CT)'. A blue 'Confirm' button is at the bottom, with a 'Next Step' link below it.

---

## Voting Tips

- Vote for the hospital(s) that you know provide great care to the most complex patients.
- Hopefully you'll agree that Yale New Haven Hospital is one of those institutions and you'll write it on line A.
- Voting for other Health System hospitals in lines B through E will help with regional rankings for those hospitals and our Health System.
- You do not need to vote for five hospitals.

---
