Smilow Cancer Hospital
Sickle Cell Disease Program

35 Park Street

7th Floor

New Haven, CT 06511

Pregnant persons with sickle cell disease (SCD) are at increased risk of morbidity and mortality and require multidisciplinary specialized care during this time. The adult Sickle Cell Disease program at Smilow Cancer Hospital specializes in the care of pregnant persons with SCD.

Dr. Layla Van Doren is an Assistant Professor of Medicine (Hematology) providing specialized care to patients with sickle cell disease and patients with bleeding and clotting disorders at Smilow Cancer Hospital.
