presents

“Screening for Prostate Cancer: Applying Lessons from Prostate Cancer Management to Improve the Quality of Early Detection”

Michael Leapman, M.D.

Assistant Professor, Urology
Yale School of Medicine
Clinical Program Lead, Prostate and
Genitourinary Cancers Program
Smilow Cancer Center

This talk will address contemporary controversies and evidence supporting prostate cancer screening. Focusing on major trials addressing prostate cancer screening, as well as the evidence contributed from the untreated natural history of prostate cancer. The objective is to develop and present a practical strategy for prostate cancer screening.

Tuesday, February 15, 2022
