***Potential projects for internships and/or theses  
at the Veterans Affairs (VA) Cooperative Studies  
Program Coordinating Center (CSPCC) and the Clinical  
Epidemiology Research Center (CERC).***

**Speakers: Peter Guarino, MPH, PhD, Director CSPCC  
Mihaela Aslan, PhD, Deputy Director CERC  
Tassos Kyriakides, PhD, Biostatistician CSPCC  
Michael Wininger, PhD, Biostatistician CSPCC**

**ABSTRACT**

This presentation will focus on analytical and methodological projects that utilize data from completed and on-going clinical trials and observational studies in mental health, infectious, cardiovascular, and vascular disease. These studies are coordinated by VA CSPCC and CERC, located at the Veterans Affairs Medical Center in West Haven, CT. The CSPCC and CERC design and conduct large multicenter clinical trials and observational (including genomic) studies that have a major impact on the health and welfare of US Veterans and the public.

**3:00 p.m., Friday, February 28, 2014**  
**LEPH 115, 60 College Street**
