Evaluations: Participants are required to complete an electronic evaluation in order to obtain CME Credits. An email with instructions will be sent to participants. Please complete the evaluation within one week of receiving the email. If you do not receive an evaluation assignment within ten business days of this activity, please contact the Department of Obstetrics and Gynecology to ensure that your participation in this activity was forwarded to the CME office.

Accreditation: The University of Connecticut School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The University of Connecticut School of Medicine designates this live activity for a maximum of *6 AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Conflict of Interest Policy: All faculty members participating in CME activities provided by the University of Connecticut School of Medicine are required to disclose to the program audience any actual or apparent conflict of interest related to the content of their presentations. Program planners have an obligation to resolve any actual conflicts of interest and share with the audience any safeguards put in place to prevent commercial bias from influencing the content.

Activity Director Disclosure Statement:

Dr. Jennifer Jorgensen, as the activity director, does not have a financial interest/arrangement or affiliation with any organizations that could be perceived as a real or apparent conflict of interest in the context of the subject of this presentation.

Planning Committee Disclosure Statement: Drs. Molly Brewer, Jennifer Jorgensen, Andrea Shields, Bradford Whitcomb, Ms. Wendy Larose, and Ms. Katherine Zelko, as member(s) of the planning committee, do not have a financial interest/arrangement or affiliation with any organizations that could be perceived as a real or apparent conflict of interest in the context of the subject of this presentation.

This CME activity has no commercial support associated with it.

2:50 – 3 p.m.	Q & A: Session 6 & 7		

Learning Objectives and Disclosures

Drs. Keyser, Grow, Runowicz, Horowitz, Whitcomb, Shields, and Jorgenson do not have a financial interest/arrangement or affiliation with any organizations that could be perceived as a real or apparent conflict of interest in the context of the subject of this presentation.

a Pink Problems: Gynecologic Issues in Breast Cancer Survivors

Learning Objectives—Participants will (be able to):

1. Counsel their breast cancer patients on the pros and cons of BSO in the management of breast cancer.
2. Identify side effects of breast cancer treatments and empower gynecologists to ask breast cancer survivors about symptoms and side effects they are experiencing to include sexual dysfunction.
3. Explore the various treatment options for sexual dysfunction and vasomotor symptoms in breast cancer survivors, including the risks and benefits of each treatment and medications that can be prescribed.

Speaker Disclosure Statement:

Dr. Keyser will be discussing an off-labeled use of MonaLisa.

b Oncofertility: Exploring Fertility Options for Young Women with Cancer

Learning Objectives—Participants will (be able to):

1. Identify female cancer patients who may be candidates for fertility preservation.
2. Review fertility options with patients.
3. Identify local resources so they can make timely referrals and cancer care is not compromised but the hope of family is preserved.

Speaker Disclosure Statement:

Dr. Grow will be discussing an off-labeled use of Leuprolide acetate and other GnRH-agonists.

c Management of Ovarian Masses in Pregnant Women including Ovarian Cancer

Learning Objectives—Participants will (be able to):

1. Explain the increased prevalence of adnexal masses in pregnancy.
2. Distinguish the pregnancy-associated changes in CA-125 and other tumor markers.
3. Review conservative versus surgical therapeutic options.

Speaker Disclosure Statement

Dr. Runowicz will not be discussing the off-labeled use of any product.

d Updates on the Management of Gestational Trophoblastic Disease

Learning Objectives—Participants will (be able to):

1. Recognize molar pregnancies, their etiology, natural history, and management with a particular focus on hCG surveillance.

2. Diagnose gestational trophoblastic neoplasia, stage this disease, choose appropriate first- and second-line treatments, and when to refer to centers of excellence.

3. Counsel women regarding future fertility and pregnancy outcomes after a diagnosis of molar pregnancy or GTN.

Speaker Disclosure Statement:

Dr. Neil Horowitz will not be discussing the off-labeled use of any product.

e Fertility Sparing Management of Endometrial Hyperplasia and Adenocarcinoma

Learning Objectives—Participants will (be able to):

1. Provide counseling to premenopausal women regarding ovarian preservation when diagnosed with endometrial cancer.
2. Provide counseling and referral to women who desire fertility-sparing treatment of early-stage endometrial cancer.
3. Improve performance on oral and written examinations for career development with respect to fertility and ovarian preservation in women with endometrial cancer.

Speaker Disclosure Statement:

Dr. Whitcomb will not be discussing the off-labeled use of any product.

f Obstetric Management of Pregnancy Complicated by Cancer

Learning Objectives—Participants will (be able to):

1. Describe the most common reproductive tract malignancies diagnosed during pregnancy and review the potential adverse obstetric outcomes associated with these.
2. Examine shared decision-making as it relates to crucial decisions on obstetric care in pregnancies complicated by malignancies.
3. Describe preconception counseling for patients with a history of reproductive tract malignancies.

Speaker Disclosure Statement:

Dr. Shields will not be discussing the off-labeled use of any product.

g Management of Abnormal Pap Smear Screening Results and Cervical Cancer in Young and Pregnant Women and Women Desiring Future Fertility

Learning Objectives—Participants will (be able to):

1. State the age-appropriate cervical cancer screening test and interval for women of different ages.
2. Describe management options for LSIL and HSIL in each trimester of pregnancy.
3. Provide initial counseling to the pregnant patient with newly diagnosed cervical cancer.

Speaker Disclosure Statement:

Dr. Jorgensen will not be discussing the off-labeled use of any product.
