Dr. Horwitz is director of the Center for Healthcare Innovation and Delivery Science at NYU Langone Health, director of the Division of Healthcare Delivery Science in the Department of Population Health at NYU School of Medicine, tenured associate professor of population health and of medicine, and a practicing internist. Her work focuses on improving the safety and quality of healthcare delivery. She conducts federally-funded research on transitions in care; has developed quality measures for the Centers for Medicare & Medicaid Services; and leads the AHRQ-funded T32 Training Program in Population Health and Healthcare Delivery, and the Rapid Cycle RCT Lab. She was recently named an Emerging Leader by the National Academy of Medicine and is an elected fellow of the American Society of Clinical Investigation. Dr. Horwitz received her undergraduate degree in Social Studies from Harvard and her medical degree from Harvard Medical School. She then completed residency and chief residency in internal medicine at Mt. Sinai Hospital in New York, NY and the Robert Wood Johnson Clinical Scholars Program at Yale. Dr. Horwitz was on faculty at Yale for 7 years before moving to NYU in 2014.
