Yale Pathology

Pathology Grand Rounds Thursday, January 27th 12:30-1:30pm

Hosted by: Themis Kyriakides, PhD

Marissa J. White MD

Assistant Professor of Pathology, John Hopkins University School of Medicine

Empowering Change: Effective Strategies to Improve Diversity, Equity and Inclusion in Pathology

Needs: There is a need for increasing awareness of the importance of diversity, equity and inclusion in pathology and its relevance to pathology-specific and multidisciplinary patient care. Despite this need, there are persistent barriers to the successful recruitment and retention of individuals underrepresented in medicine in pathology training programs. The presenter will provide a pathology-specific overview of core DEI concepts, the elements critical to a successful DEI initiative.

Objectives: Describe the historical and current distribution of individuals underrepresented in medicine, both in training and in practice, with an emphasis on pathology-specific data; recognize how the barriers to retaining individuals underrepresented in medicine may evolve at each new stage of their education and career; outline the key elements for an impactful diversity, equity and inclusion initiative.
