23rd Annual Yale Glaucoma Symposium

Friday, September 6, 2019

Birchwoods At Oak Lane
1027 Racebrook Rd, Woodbridge, CT
Glaucoma is one of the leading causes of global blindness, affecting nearly 3 million Americans. In the past decade, new advances in diagnostic, medical, and surgical treatments have led to greater patient awareness and demand for increased quality of care. This course is designed to educate clinicians regarding innovative techniques to improve care to patients afflicted with this disease.

COURSE DIRECTORS
Christopher Teng MD
Associate Professor
Vice Chair, Clinical Affairs
Director, Glaucoma Section
Department of Ophthalmology and Visual Science
Yale School of Medicine

Lucian V. Del Priore MD, PhD
Robert R. Young Professor & Chair
Department of Ophthalmology and Visual Science
Yale School of Medicine

M. BRUCE SHIELDS LECTURER
Jeffrey M. Liebmann MD
Shirlee & Bernard Brown Professor of Ophthalmology
Vice-Chair, Department of Ophthalmology
Glucoma Service Director
Columbia University Medical Center

GUEST SPEAKERS
Bruce Altman MD, FAAO
Danbury Eye Physicians & Surgeons, PC

Robert Chang MD
Assistant Professor of Ophthalmology
Stanford University School of Medicine

Professor of Ophthalmology
John H. Stroger, Jr., Hospital of Cook County
CEO and Founder of Midwest Glaucoma Center, PC

LEARNING OBJECTIVES
These presentations will enable participants to:

- Recognize strategies for how to medically manage complex glaucoma patients
- Evaluate the nerve fiber layer using optical coherence tomography
- Review the new class of glaucoma medications, Rho Kinase inhibitors
- Differentiate between glaucoma and neuroophthalmic vision loss
- Discuss the new landscape of micro invasive glaucoma surgeries

This live activity is approved for AMA PRA Category 1 Credits™.
