NEEDS ASSESSMENT

The speaker will review the state of the science in biomarker development in autism spectrum disorder. He will summarize recent progress in the context of the Autism Biomarkers Consortium for Clinical Trials.

LEARNING OBJECTIVES:

At the end of this activity, participants will be able to:

- Name two types of biomarkers relevant to autism spectrum disorder
- 2. List a promising biomarker for autism
- Name a methodological benefit of studies like the Autism Biomarkers Consortium for Clinical Trials

DESIGNATION STATEMENT

The Yale School of Medicine designates this live activity for 1 AMA PRA Category 1 Credit(s)TM. Physicians should only claim the credit commensurate with the extent of their participation in the activity.

FACULTY DISCLOSURES

James McPartland, PhD: BlackThorn Therapeutics, Guildford Press, Lambert Publications, Springer Publications, Customer Value Partners Pnina Weiss, MD, Grand Rounds Director: None

It is the policy of Yale School of Medicine, Continuing Medical Education, to ensure balance, independence, objectivity and scientific rigor in all its educational programs. All faculty participating as speakers in these programs are required to disclose any relevant financial relationship(s) they (or spouse or partner) have with a commercial interest that benefits the individual in any financial amount that has occurred within the past 12 months; and the opportunity to affect the content of CME about the products or services of the commercial interests. The Center for Continuing Medical Education will ensure that any conflicts of interest are resolved before the educational activity occurs.
