Professor of Medicine and Professor of Epidemiology, Mayo Clinic

Date: February 21, 2019

Time: 8:30-9:30am

Location: Fitkin Auditorium

“Non-Celiac Gluten Sensitivity (NCGS) – A True Disease or Misdiagnosis?”

There is no corporate support for this activity

This course will fulfill the licensure requirement set forth by the State of Connecticut

ACCREDITATION:

The Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

TARGET AUDIENCE:

Attending physicians, house staff, fellows, medical students, PA's.

NEEDS ASSESSMENT:

The effective practice of medicine requires the ability to elicit and interpret the stories of patients. Clinicians need to have knowledge of the principles of narrative medicine, and their application to patient care.

LEARNING OBJECTIVES:

1. Understand the disease burden and associated comorbidities in the US and internationally
2. Review current knowledge of disease pathways in NCGS including the relevance of duodenal pathology
3. Critically evaluate management strategies including the risks and benefits of a gluten free diet in NCGS.

DESIGNATION STATEMENT:

The Yale School of Medicine designates this live activity for 1 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim the credit commensurate with the extent of their participation in the activity.

FACULTY DISCLOSURES:

Course Director: Vincent Quagliarello, MD - None

Speaker: Nicholas J. Talley, MD, PhD - Grant / Research Support: Commonwealth Diagnostics (International) Inc (IBS) (ceased 2017); Prometheus USA (funding ceased – no current funding in 3 year cycle but study data being analysed); HVN National Science Challenge NZ (no financial support)

Patents: Biomarkers of irritable bowel syndrome (#12735358.9 -1405/2710383 and (#12735358.9 -1405/2710384); Licensing Questionnaires (Mayo Clinic) Talley Bowel Disease Questionnaire, Mayo Dysphagia Questionnaire; Nestec European Patent Application No. 12735358.9; Singapore 'Provisional' Patent NTU Ref: TD/129/17 "Microbiota Modulation of BDNF Tissue Repair Pathway"
