

Yale Eye Center Clinical Conference Series Temple Medical Center Conference Room, 60-LL

7:00 a.m. - Friday, April 10, 2015

Ji Liu, M.D.

Assistant Professor of Ophthalmology & Visual
Science, Yale School of Medicine

“Twenty-four Hour Intraocular Pressure: Knowns and Unknowns”

ACCREDITATION

The Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

CME CREDIT

The Yale School of Medicine designates this live activity for 1.25 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

NEEDS ASSESSMENT:

Intraocular pressure (IOP) fluctuates constantly. Continuous IOP monitoring may help clinicians to better understand the development of glaucoma and guide clinical management. We now know more about how IOP variations affect glaucoma. But there are still challenges and controversies.

LEARNING OBJECTIVES:

At the conclusion of the program the meeting attendee will understand and be able to describe: (1) the clinical significance of IOP circadian rhythms and long-term IOP fluctuations; (2) variables and factors that may affect IOP fluctuations and continuous IOP measurements; (3) new technologies in continuous IOP recording and future directions.

FACULTY DISCLOSURES

It is the policy of Yale School of Medicine, Continuing Medical Education, to ensure balance, independence, objectivity and scientific rigor in all its educational programs. All faculty participating as speakers in these programs are required to disclose any relevant financial relationship(s) they (or spouse or partner) have with a commercial interest that benefits the individual in any financial amount that has occurred within the past 12 months; and the opportunity to affect the content of CME about the products or services of the commercial interests. The Center for Continuing Medical Education will ensure that any conflicts of interest are resolved before the educational activity occurs.
