

Presented by:

**Program for Biomedical Ethics and
Yale Pediatric Ethics Program**

11/2/2022

Ethics Issues Specific to Medical Trainees

5:00 PM – 6:30 PM | **Zoom Only**

The Program for Biomedical Ethics at Yale School of Medicine provides multidisciplinary leadership regarding the ethical and social aspects of health care and medical research. Our interdisciplinary team draws upon philosophy, law and social and behavioral sciences to provide expert biomedical ethics consultations for families, researchers, physicians and other health care providers. Additionally, the Program for Biomedical Ethics develops and presents various ethics-related educational programs throughout the academic year for medical, nursing and physician assistant students, the community, Yale faculty as well as local, regional and national health care professionals.
