**Thursday, April 27th, 2017 - 4:00PM-5:00PM**  
**Brady Auditorium, 310 Cedar St**

**LEARNING OBJECTIVES:**

At the conclusion of this talk, the attendees will be able to:

1. Describe the age-related gonadotoxic effects of antineoplastic therapy
2. Determine the optimal fertility preservation techniques on a case-by-case basis
3. Counsel the cancer patient regarding her reproductive options

**NEEDS ASSESSMENT:**

This talk is important because

1. Marked improvements in cancer survival in the reproductive age and pediatric populations have increased the relevance and urgency of preserving long-term reproductive options for these patients. This talk will assist practitioners in appropriately counseling their cancer patients and referring for optimal fertility preserving measures.
