

Yale SCHOOL OF MEDICINE

GENETICS DEPARTMENT SEMINAR SERIES

Special Seminar

Using Stem Cells to Explore the Genetics Underlying Neuropsychiatric Disease

Dr. Brennand's research integrates stem cell-based approaches with CRISPR-mediated genomic engineering strategies, to study the impact of patient-specific variants across and between the cell types of the brain. The goal of her research is to uncover the convergence and synergy arising from the complex interplay of the many risk variants linked to brain disease.

Kristen Brennand, Ph.D.

Professor, Department of Psychiatry
Yale School of Medicine

Host: Valerie Reinke, Ph.D.

Professor and Vice Chair
YSM Department of Genetics

Thursday, May 14, 2020
4:00-5:00PM
