

# Virtual Care Symposium 2024

## From Novelty to Sustainability – How to Embed Virtual Care into the Post-Pandemic Healthcare Delivery Template

Wednesday, March 13, 2024

1 – 5 pm EDT

Please join us for presentations on important topics related to innovations in virtual care:

- **AI and Technology Enabled Clinical Workflow Redesign:** Virtual Nursing, Telesitting and AI enabled documentation.

**Session moderator:** Lee Schwamm, MD, Senior Vice President and Chief Digital Health Officer, Yale New Haven Health and Associate Dean, Digital Strategy and Transformation, Yale School of Medicine

- **Virtual Primary Care:** Successes and struggles with integrating virtual care models into primary care.

**Session moderator:** John D. Scott, MD, Chief Digital Health Officer, University of Washington Medicine

- **Selling the ROI for Virtual Care:** Senior healthcare executives will evaluate three ROI presentations in a shark tank style format.

**Session moderator:** Judd Hollander, MD, Senior Vice President, Healthcare Delivery Innovation, Thomas Jefferson University

- **Leveraging Community Spaces to Expand Virtual Care Access:** Use of public libraries to meet the information and virtual care needs of communities.

**Session moderator:** Elizabeth Krupinski, PhD, Professor and Vice Chair, Research, Emory University

This event is free of charge. To register, visit [Virtual Care Consensus](#).
