

Present:

Ethical Considerations in U.S. Healthcare Policy

Are we morally obligated to provide healthcare to all Americans?

*Is there an ethical obligation to limit the powers
of pharmaceuticals & insurance companies?*

Is a “single payer system” our solution?

To enhance the discussion, we will view selected works of art
in the Medical Historical Library.

Open to the Public. All are welcome!

John S. Hughes, MD

*Associate Director, Program for
Biomedical Ethics
Professor of Medicine, Yale School
of Medicine*
