This activity will be accredited for CME credits.

FRIDAY, MARCH 1, 2019

7:30 am Registration and Breakfast

8:00 Opening Remarks

Lori Pickens, MPH, Senior Vice President and Executive Director,
Smilow Cancer Hospital

8:15 Session One: The Changing Landscape of Hepatocellular Carcinoma (HCC) Management—Between Reality and Predictions

Moderators: **Mario Strazzabosco, MD, PhD**, Professor of Medicine;
Clinical Program Leader, Liver Cancer Program; Deputy Director, Yale Liver Center
Rob Goodman, MBBCh, MBA, BMSc, Chairman and Professor of
Radiology and Biomedical Imaging

Epidemiology Trends: Evolving Etiologies, Risk Factors, the Impact of Obesity, and Screening Guidelines for Populations at Risk

Tamar Taddei, MD, Associate Professor of Medicine (Digestive Diseases)

HCC Imaging: Diagnostic Paradigms, Reporting, and New Tools

Jeffrey Weinreb, MD, FACR, FISMRM, FSCBT/MR, Professor of Radiology
and Biomedical Imaging

Big Data: Artificial Intelligence Solutions for Decision Making

Julius Chapiro, MD, Associate Research Scientist, Radiology and
Biomedical Imaging

**The Expanding Role of Biopsy and Genomic Sequencing
in the Age of Personalized Therapies**

Dhanpat Jain, MD, Professor of Pathology and of Medicine (Digestive Diseases)

Q&A

10:15 Break

10:25 Targeted Medical Treatment for HCC—
Present Options and What's New in the Pipeline

Stacey Stein, MD, Assistant Professor of Medicine (Medical Oncology)

10:45 Q&A

10:55 Session Two: The Patient With Early Stage Disease:
What is the First Line Therapy?

Moderator: **Nita Ahuja, MD, MBA**, Chair, Department of Surgery;
William H. Carmalt Professor of Surgery

Niches for Stereotactic Radiation Therapy

Kimberly Johung, MD, PhD, Assistant Professor of Therapeutic Radiology;
Director, Gastrointestinal Radiotherapy Program

Surgical Resection

Charles Cha, MD, FACS, Associate Professor of Surgery (Oncology and
Gastrointestinal)

Image-guided Ablation

Jeffrey Pollak, MD, Robert I. White, Jr. Professor of Radiology and Biomedical Imaging

How Does Transplant Fit in?

Michael Schilsky, MD, Professor of Medicine (Digestive Diseases);
Medical Director, Adult Liver Transplant Center

The Case for Robotic Surgery

David Mulligan, MD, FACS, Professor of Surgery (Transplant);
Section Chief, Transplantation Surgery and Immunology

Q&A

Lunch

**Session Three: The Patient With Intermediate Stage Disease:
New Frontiers**

Moderator: **Sukru Emre, MD**, Professor of Surgery (Transplant) and of Pediatrics

**State-of-the-Art Transarterial Chemoembolization—
30 Years of TACE**

Kevin Kim, MD, Professor of Radiology and Biomedical Imaging;
Professor of Medicine (Medical Oncology)

10 Years of Clinical Trials

Todd Schlachter, MD, Assistant Professor, Radiology and Biomedical Imaging

Q&A

Break

Session Four: The Patient with Advanced Stage Disease

Moderators: **David Mulligan, MD, FACS**

Michael Nathanson, MD, PhD, Gladys Phillips Crofoot Professor of Medicine
(Digestive Diseases); Professor of Cell Biology; Director, Yale Liver Center

Role of TARE-Y90: Lessons Learned

Juan Carlos Perez Lozada, MD, Assistant Professor of Radiology
and Biomedical Imaging

**Palliative Care: Support for Patients and Families Facing
Advanced Liver Disease**

Andrew Putnam, MD, Assistant Professor of Medicine;
Smilow Cancer Hospital Palliative Care Program

Q&A

Putting it all Together

Moderator: **Mario Strazzabosco, MD, PhD**

Panelists: **David Mulligan, MD, FACS; Charles Cha, MD, FACS;**
Kevin Kim, MD; Stacey Stein, MD; and Tamar Taddei, MD

5:00
