Does Early Food Introduction Prevent Food Allergies? 2021 Recommendations

9/22/2021 12:00:00 PM–9/22/2021 1:00:00 PM | Medical Campus

The Pediatric Subspecialty Lecture series is a multidisciplinary series. The series includes one hour lectures and case presentations that update our pediatric subspecialist physicians, learners and other healthcare professionals on cutting edge biomedical sciences, clinical and educational practices, presenting this information in an understandable and clinically useful format, that informs the health care delivery and improves outcomes of children and adolescents. Pediatric Subspecialty lecture topics are varied.

Texting code for today's session: 29692

Faculty:

Jonathan Spergel, MD, PhD
Professor
Children's Hospital of Philadelphia

Program Goal:

- 1 Identify the major food allergens
- 2 Identify a strategy to prevent food allergies
- 3 Review the latest US guidelines on food introduction
