

# LEADERSHIP IN BIOMEDICINE

*Lecture Series for Students  
2018–2019*

Wednesday, January 16, 2019  
Hope 110  
4:30 p.m.

**Sherman Weissman, M.D.**  
*Sterling Professor of Genetics*

## What's To Come

The purpose of this lectureship series is to invite a distinguished physician-scientist from the Yale faculty to present a perspective on his or her biomedical research, focusing on the novel science and on personal issues in choosing a career pathway in academic medicine.

*Sponsored by The Office of Student Research and the Deputy Dean for Education*
