

Digestive Diseases Research Seminar
*Presented by Yale School of Medicine,
Department of Internal Medicine, and Section of Digestive Diseases*

Celiac Disease Update

Gopal Veeraraghavan MD, MPH

Gastroenterology Fellow
Beth Israel Deaconess Medical Center, Boston, MA

Tuesday, September 28, 2021

5:00 - 6:00 pm via zoom

Host: Loren Laine, MD

Please email lisa.delizio@yale.edu for the Zoom link.

To record your attendance to this activity, text the Activity Code (29415) for your RSS activity to 203-442-9435. You will receive a message back that verifies your activity attendance has been recorded for CME credit.

There is no corporate support for this activity. **Accreditation:** The Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. **Target Audience:** YSM faculty, fellows, nurses, residents, medical students, staff, and other health care providers. **Designation Statement:** The Yale School of Medicine designates this live activity for 1 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim the credit commensurate with the extent of their participation in the activity. **Needs assessment:** Celiac disease remains undiagnosed in a significant proportion of individuals and several studies have shown that there has been a significant change in the epidemiology and clinical presentation of celiac disease over the years. A mismatch in the results of various serological tests can result in diagnostic dilemmas. Additionally, significant proportion (estimated 10%-30%) of patients with celiac disease do not respond to the gluten free diet [Nonresponsive celiac disease (NRCD)] and require further work up in order to identify the cause of NRCD. A better understanding of these issues could help in bridging the clinical gaps in caring for patients with celiac disease. **Objectives:** Recognize the changing prevalence, epidemiology, and clinical presentations of celiac disease; Assess the utility of commonly used antibody tests in the diagnosis of celiac disease and choose the most appropriate combination of tests to confirm or rule out the diagnosis of celiac disease; Identify various potential causes of non-response to therapy with the gluten free diet and recognize and treat the underlying cause of NRCD. **Faculty Disclosures:** G Veeraraghavan – None; L Laine – None. It is the policy of Yale School of Medicine, Continuing Medical Education, to ensure balance, independence, objectivity, and scientific rigor in all its educational programs. All faculty participating as speakers in these programs are required to disclose any relevant financial relationship(s) they (or spouse or partner) have with a commercial interest that benefits the individual in any financial amount that has occurred within the past 12 months; and the opportunity to affect the content of CME about the products or services of the commercial interests. The Center for Continuing Medical Education will ensure that any conflicts of interest are resolved before the educational activity occurs. **This course will fulfill the licensure requirement set forth by the State of Connecticut.**
