

'In the Midst of it All'

a podcast of patient stories and interviews

We invite you to hear from people that have navigated work, kids, exercise, pain, relationships, faith, and spirituality in the midst of cancer. Many of the contributors have been where you are now. They hope that their words provide you with comfort and encouragement and help you know that you are not alone.

You can listen to “In the Midst of it All” on Apple podcasts or Spotify. This podcast is a project of the Palliative Care Program at Smilow Cancer Hospital. All the stories and interviews were written with and conducted by, Jane Jeuland, Palliative Care Chaplain.
