## “Es’Crutial’Ectomy: Adult Buried Penis Repair is That Important”

The CME activity is designed to cover a broad range of clinical and research urologic topics which audience members will either have exposure to in their own urologic practices, as well as being generalizable to improve overall understanding and expansive to common and evolving urologic topics. The conference will also cover associated medical issues that many physicians and urologists are faced with as they manage complicated patients in a multidisciplinary community of physicians

For CME credits, please text code 35372 to 203.442.9435

### Faculty:

Joshua Sterling, MD  
Assistant Professor, Urology  
Yale School of Medicine

#### Program Goal:

1. Difference between adult and pediatric buried penis repair
2. Buried penis repair is not a cosmetic procedure
3. Consequence of delayed repair

Target Audience: Urology
