

# DEPARTMENT OF GENETICS SYMPOSIUM 2

TUESDAY, JANUARY 21<sup>ST</sup>, 2020  
9AM-2PM

## **CHRIS SMILLIE**

**BROAD INSTITUTE**

"The architecture of the mammalian gut in health and disease"

## **ANNA KUCHINA**

**UNIVERSITY OF WASHINGTON**

"Exploring microbial phenotypic diversity with  
single-cell RNA sequencing"

Maurice R. Greenberg  
Amphitheater  
391 Prospect St, New Haven

Register: [Yale Genetics Symposia](#)

*Lunch and refreshments will be served*  
Contact: [neltja.brewster@yale.edu](mailto:neltja.brewster@yale.edu)

## **VAGHEESH NARASIMHAN**

**HARVARD UNIVERSITY**

"Using ancient DNA to understand human  
population structure, natural selection and  
life history traits over the past 10,000 years"

## **BUSHRA RAJ**

**HARVARD UNIVERSITY**

"Global insights into brain diversity, development  
and lineage at single-cell resolution"

Yale
