“Tools and tactics to fight childhood tuberculosis”

Tuberculosis is both preventable and curable, yet it remains a top ten cause of global under-5 mortality. This session will provide an introduction to the scourge of childhood tuberculosis and the tools and tactics that can be deployed against it. We will discuss technical and social obstacles that must be overcome by those fighting to eliminate tuberculosis in children.

12:00 PM Thursday, March 7, 2019
47 College Street, Room 106A
Host: L. Davis/G. Gonsalves
