Sustainable Health Initiative

A collaboration of Yale *Institute for Global Health*,
Yale School of Public Health, The CoWrks Foundry, and RMZ Foundation

SHI provides a unique opportunity for early to mid-stage ventures to participate in a global health business accelerator. Selected startups receive up to $70,000 USD in seed funding, access to industry and faculty mentors, and the opportunity to learn in an international context.

Current Yale students, alumni, fellows, trainees, and faculty members are encouraged to apply!

Access the application here

To learn more about SHI visit Yale Institute for Global Health's website.

Interested in applying or have more questions? Schedule office hours with Fatema Basrai, Assistant Director of InnovateHealth Yale and Innovation Manager for the Sustainable Health Initiative.
