

# 19th Therapeutic ERCP/EUS Workshop

**Friday, September 25, 2015**

**Smilow Cancer Hospital at Yale–New Haven  
55 Park Street Auditorium, New Haven, CT**

*The Yale School of Medicine, Department of Internal Medicine, Section of Digestive Diseases and the Interventional Endoscopy and Pancreas Center would like to cordially invite you and your staff to our 19th Therapeutic ERCP/EUS Workshop this fall. We believe that this will be a great learning experience for everyone involved. We have a terrific patient case line-up featuring ERCP, EUS/FNA, difficult cannulations, biliary and pancreatic stones and altered anatomy.*

*We are fortunate to have two dynamic, renowned guest endoscopists who will join us in performing cases as well as provide commentary and facilitate discussions: Dr. John G. Lee of University of California, Irvine School of Medicine and Dr. Amrita Sethi of NewYork-Presbyterian/Columbia University Medical Center. The morning session will feature live cases with interactive discussion and a didactic lecture.*

*The afternoon features a lecture, live cases and optional hands on wire technique breakout session for RNs/techs. This type of format is popular nationally, but restricted to a few centers. This is the only facility hosting such events in the region. It would be our pleasure to have you join us for this enjoyable day of medical collaboration and education.*

## **COURSE DIRECTORS:**

**Harry Aslanian MD**

*Associate Professor of Medicine  
Director, Advanced Endoscopy Training Program  
Yale School of Medicine*

**Priya A. Jamidar MD**

*Professor of Medicine  
Director of Endoscopy
