

Foundations of Community Engagement in Cancer Research

An Introduction to Community-Engaged Research for Cancer Researchers (Part 1 of 3 Part Series)

Monday, February 23, 2026 from 11:00am-12:00pm

Zoom only

RSVP: <https://bit.ly/3Y572Ho>

Sakinah Carter Suttiratana, PhD, MPH, MBA

Community Outreach and Engagement (COE) Faculty, Yale Cancer Center

This lecture series introduces core principles of community engaged research relevant to cancer prevention, detection, treatment, or care using case examples from Yale Cancer Center and elsewhere. Session One will focus on principles for engaging community members and non-academic partners in research.

Participants who attend all three sessions will receive a certificate of completion at the end of the program.

For questions, please contact ycc.coe@yale.edu

Future Lecture Series Topics

Catchment Area Cancer Data: Exploring Connecticut Communities (April 6)

Research Dissemination and Measuring Engagement Impact for Cancer Research (May 4)
