

DEPARTMENT OF GENETICS SYMPOSIUM 1

WEDNESDAY, JANUARY 20TH, 2021
9:00AM-1:00PM

STEVEN REILLY

BROAD INSTITUTE OF MIT & HARVARD

“Functional Characterization of Adaptive Alleles for Human Traits”

KAITLIN SAMOCHA

WELLCOME SANGER INSTITUTE

“Variation in context: leveraging patterns of rare genetic variation and constraint to improve interpretation”

TARJINDER SINGH

BROAD INSTITUTE OF MIT & HARVARD

“Exome sequencing implicates risk genes for schizophrenia and provides mechanistic insights into disease biology”

XIN JIN

HARVARD UNIVERSITY

“How genes and environment shape brain development: in vivo Perturb-seq and beyond”
