

Environmental Health Sciences Seminar

“The Health Effects of Marijuana Policy Liberalization”

Andrew A. Monte, M.D., Ph.D.

**Assistant Professor
School of Medicine
University of Colorado Denver**

Dr. Andrew A. Monte, MD is an Emergency Medicine and Medical Toxicology physician at the University of Colorado School of Medicine. He serves on the faculty at the Rocky Mountain Poison & Drug Center. Dr. Monte’s research focuses on precision medicine and drugs of abuse. He works closely with the Colorado Department of Public Health and Environment on the Retail Marijuana Public Health Advisory Committee. This group is tasked with reviewing the scientific evidence on the public health implications of marijuana use in order to make policy and research recommendations to the Colorado legislature. He is considered a National expert on the health implications of cannabinoid use and has published and lectured widely on the topic.

**12:00 p.m. Wednesday, November 4, 2015
60 College Street, LEPH 101**
