

The National Clinician Scholars Program (NCSP)

Advancing Health and Health Care through Scholarship and Action

Growing out of four decades of the Robert Wood Johnson Clinical Scholars program, and in partnership with the VA Office of Academic Affiliations, the NCSP is a two-year, interprofessional fellowship that trains leaders who will address the problems we face in health and health care. Our scholars will be change agents creating actionable evidence that can be used to inform and improve health and healthcare delivery.

MDs and RNs with a doctoral degree (PhD or DNP) are eligible to apply.
