### **YSPH and COVID-19 research in China**

Chinese colleagues reached out to YSPH faculty as they tackled the many research questions that emerged from the Wuhan outbreak. A number of us at YSPH thereby engaged research endeavors “long-distance” with our counterparts. Sten contributed to an outbreak investigation in Egypt in a Chinese-owned company, a study of HIV-SARS-CoV-2 co-infection, and a behavioral survey of medical students during the lockdown; all will be reviewed briefly. I will also share research from other YSPH investigators in other departments of interest to the EMD community, including air pollution reduction during COVID (Kai Chen and Paul Anastas).

**12:00 PM Wednesday, September 16, 2020**

**Host: N. Grubaugh/R. Heimer/B. Weiss**
