POSTER GUIDELINES:

One poster board (approximately 4 feet high and 6 feet wide) will be provided for you as well as printed number identifying your poster board. Push pins will also be provided.

- You will need to prepare a title board for the top of your poster, indicating the title and author(s) of your presentation. Ideally, the lettering for the title should not be less than 1.5 inches high. (Please note that the title board is not a separate piece of paper from the poster itself.)
- Charts, drawings, and illustrations should be similar to those you would use for slide presentations, but more heavily drawn. Remember to keep illustrated and written material simple.
- All illustrations should be made beforehand. Remember that your illustrations must be legible from a distance of at least 3 to 5 feet.
- Do not mount illustrations on a heavy board because they may be difficult to keep in position on the poster boards.
- Do not use normal "typewriter-size" type (10- to 12-point font size.)
- Display of commercial/product sales posters is prohibited. Any poster that is deemed to be a commercial advertisement will be removed from the poster hall.
- One or two authors should be present at each poster for the entire presentation time. During this time, do not allow yourself to be monopolized for an inordinate period of time by a single individual.
- Please remove your materials from the poster board immediately after the session. Materials left on the boards after the session will be discarded.

Awards will be provided on day two of the Symposium.
