“Costing and Economic Evaluations in Implementation Science”

Drew Cameron, PhD, MA
Assistant Professor, Department of Health Policy and Management and Center for Methods in Implementation and Prevention Science
Yale School of Public Health

Thursday, April 7, 2022
12:00 - 1:00 pm ET
Via Zoom

Zoom Link: Request from debbie.humphries@yale.edu

Drew Cameron, PhD, MA, is an Assistant Professor in the Department of Health Policy and Management and a faculty member in the Center for Methods in Implementation and Prevention Science at the Yale School of Public Health (YSPH). As a health economist, his research focuses on the evaluation of health and development programs in resource-poor and low- and middle-income country settings. Prior to joining the faculty at YSPH, Dr. Cameron was a member of the Global Health Cost Consortium, an initiative funded by the Bill and Melinda Gates Foundation to provide decision-makers with improved resources to estimate the costs of HIV and tuberculosis programs, and to improve the availability, quality, timing, and thus policy-relevance of cost information. He holds an MA in International Development from American University and a PhD in Health Policy from the University of California, Berkeley, School of Public Health.

Please contact Dr. Debbie Humphries at debbie.humphries@yale.edu if you have any questions.
