Assistant Professor of Surgery (Oncology),
Yale School of Medicine

Tuesday, March 3, 2020

4:00 – 5:00pm

TAC N-203

ACCREDITATION

The Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

TARGET AUDIENCE

The target audience for the HTI Seminar Series comprises attending faculty, clinical and basic scientists, community physicians, nurses, residents, fellows, and students.

NEEDS ASSESSMENT

The HTI Seminar Series seeks to review the scientific basis for choice of immunologically related therapeutic targets in various diseases, including organ-specific and systemic autoimmunity, allergy, transplant rejection, cancer, and infectious diseases. The goal is to help understand the rationale and mechanism underlying the major pharmacologic approaches for interventional immunology in current practice and review the data on the different therapeutic approaches in different specialties.

LEARNING OBJECTIVES

At the conclusion of this activity, participants will be able to:

1. Understand the efficacy of Checkpoint inhibition in locally advanced and metastatic breast cancer.
2. Understand the efficacy of adoptive cell transfer with ex-vivo expanded TILs in metastatic breast cancer.

3. Know the relative immunogenicity of each subtype of breast cancer: HER2+, TNBC, Hormone receptor positive.

DESIGNATION STATEMENT

The Yale School of Medicine designates this live activity for 1 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim the credit commensurate with the extent of their participation in the activity.
