Announcements

Head & Neck Cancer Screening a Success

Thank you to the entire team of physicians and staff who worked together to ensure the success of the 2014 Free Head & Neck Cancer Screening Program at our St. Raphael and Yale-New Haven campuses. Together over 425 people were screened for head and neck malignancies, and 19 people were referred for follow-up evaluations with the Head & Neck Cancer Program at Smilow Cancer Hospital.

Frank Slack Departing Yale

Frank Slack, PhD, Professor of Molecular, Cellular, & Developmental Biology and Co-Leader of our Cancer Genetics and Genomics Research Program, will be leaving Yale on July 1, 2014 for a position at Harvard. This is bittersweet news because although Frank has been a tremendously valued colleague to so many of us at the Cancer Center, he has taken on an exciting opportunity in Boston and I am confident that he will continue to excel in this new role.

Frank plans to transition his lab and his Cancer Genetics and Genomics Research Program leadership responsibilities over the summer, and will continue to interact with many of his Yale collaborators during this time and beyond. We are planning a celebration of Frank's service to Yale Cancer Center in June and Hilary Prosnitz will be in touch with additional details. I hope you will join me in wishing Frank all the best as he begins this new chapter.

Yale Cancer Center Participation in ASCO

I am looking forward to seeing many of you at the ASCO Annual meeting in Chicago later this month. A full list of Yale Cancer Center's participation in the meeting will be featured in

from the desk of

Thomas J. Lynch, Jr., MD
Director, Yale Cancer Center
Physician-in-Chief Smilow Cancer
Hospital at Yale-New Haven

Immunotherapies are quickly becoming a treatment option for more patients who are benefiting from recent research that harnesses the body's immune system to attack cancer. Dr. Mario Sznol at Yale Cancer Center led the way with a clinical trial for patients with advanced melanoma and renal cell carcinoma last year using anti-PD1 therapies in clinical trials. Now, researchers are looking for biomarkers and searching for ways to identify patients who will respond to these treatments.

Medical Oncology and Hematology Teaching Prizes

Yale Cancer Center is accepting nominations from current fellows for the David S. Fischer Teaching Award for the best teacher/mentor from both the medical oncology faculty and the hematology faculty, including the medical staff at the West Haven Veterans Administration Hospital. Please consider effectiveness as a teacher and mentor, involvement in clinical conferences and lectures, and "bedside teaching" when choosing your nominations. The awards will be given out at the graduation dinner. Please contact [Savannah Woods](#) for a nomination form or for more information. Nominations are due to Savannah by June 1st.

May 13; 12:00pm Yale Cancer Center Grand Rounds/Dr. Joseph R. and

Cary Gross, MD has been awarded a 3-year grant from the **American Cancer Society** totaling \$592,000 to study cancer disparities. His study will provide a timely assessment of personalized cancer care patterns and their impact on cancer equity, and identify potential leverage points to ensure optimum access to this novel and increasingly important aspect of cancer care.

Second year Radiation Oncology Resident, **Brandon R. Mancini, MD** has been elected **Executive Committee Chair of the Association of Residents in Radiation Oncology (ARRO)** for 2014-2015. ARRO is a national organization representing residents in Radiation Oncology in the United States. In this role, he will lead the ARRO Executive Committee in multiple initiatives to improve education and create opportunities for residents, act as a liaison between ARRO and the American Society for Radiation Oncology (ASTRO) leadership, and serve on several ASTRO committees as a Resident Representative.

Alanna Schepartz, PhD, Milton Harris Professor of Chemistry and Professor of Molecular, Cellular & Developmental Biology, and a member of Yale Cancer Center's Developmental Therapeutics Program, has been elected into the **National Academy of Sciences**.

David Schatz, PhD, Professor of Immunobiology and of Biophysics and Biochemistry and a member of Yale Cancer Center's Immunology and Immunotherapy Program, has been elected in to the **American Academy of Arts and Sciences**.

Roy Herbst, MD, PhD participated in the **National Forum on the Future of Health Care** at the National Press Club in Washington, DC last week and presented on *Research in the Age of Personalized Medicine: Lung Cancer Master Protocol*.

Daniel Petrylak, MD presented a poster during the 29th Annual EAU Congress in Stockholm, which was awarded a best poster award during the meeting. *A phase 2 trial of prostate specific membrane antigen antibody drug conjugate (PSMA ADC) in taxane-treated metastatic castration-resistant prostate cancer (MCRPC)*.

Narendra Wajapeyee, MD has published *Cancer Genomics and Proteomics: Methods and Protocols*, as part of the Methods in Molecular Biology Book Series.

Funding and Award Opportunities

Hartwell Postdoctoral Fellowship

The Hartwell Foundation has provided a two-year fellowship for a postdoctoral trainee at Yale School of Medicine who is conducting research to benefit children.

Eligibility:

- Applicants must be postdoctoral fellows/associates with an M.D. or Ph.D. degree.
- They must be U.S. citizens.
- The proposed research must benefit children, particularly in the U.S., and the project should involve early-stage, innovative, high-risk biomedical research that has the potential to be transformative.
- The project should not yet have qualified for significant outside funding.

Key features of the fellowship include:

- \$50,000 per year for 2 years

Application Deadline: May 19, 2014

Contact: geraldine.emerling@yale.edu

Alex's Lemonade Stand Foundation

We are pleased to announce that grant guidelines and applications are now open for submission in the following categories:

'A' Awards

NEW in 2014, the award amount has increased to \$150,000 per year for three years! Designed for early career scientists with an original project who can demonstrate outstanding mentorship and have a strong future commitment to pediatric cancer investigation. This award totals \$450,000 over three years and is open to MD, MD/PhD and PhD candidates.

Application Deadline: May 23, 2014

Reach Awards

Our Reach Awards are designed to move hypothesis-driven research toward the clinic. The goal of this award is to support selected "late translational" studies needed to ultimately initiate a clinical trial. A successful application will identify an unmet clinical need relevant to the care of pediatric cancer patients and describe how the proposed project will allow for the pre-clinical research to be translated to the clinic while keeping broader clinical testing and implementation in view. Maximum of \$250,000 in total costs awarded over two years.

Application Deadline: May 30, 2014

Lung Cancer Research Foundation Grants

Support research on innovate strategies for better treatments, screening, and prevention of all cancers of the lung. These awards are designed to provide critical seed support for cutting-edge scientific research on all lung cancers and will support projects with a focus on basic science, translational research, clinical research, supportive care, and quality of care/outcomes. Up to \$50,000 for 1 year.

of their last training position (e.g., postdoctoral fellowship, medical residency, clinical fellowship) as of the application submission deadline

- Supports exceptionally talented, creative early-career scientists who have demonstrated that they are the "best and brightest" in their fields.
- PIs should articulate a vision that challenges current dogma and demonstrates an ability to look beyond tradition and convention.
- PIs should exhibit strong potential for leadership in the breast cancer community
- PIs must include breast cancer advocates on their research team.
- Maximum funding of \$2.5M for direct costs (plus indirect costs)
- Period of performance not to exceed 5 years

Letter of Intent Deadline: August 1, 2014

Application Deadline: August 15, 2014

Innovator Award

Associate Professor or above (or equivalent)

- Supports visionary individuals who have demonstrated creativity, innovative work, and leadership in any field.
- Provides opportunity to pursue novel, visionary, high-risk ideas that will accelerate progress toward ending breast cancer.
- PIs must include breast cancer advocates on their research team.
- Nomination is required; self-nominations are accepted; application submission is by invitation only.
- Maximum funding of \$5M for direct costs (plus indirect costs)
- Period of performance not to exceed 5 years

Nomination Deadline: May 14, 2014

Invited Application Deadline: August 15, 2014

Breakthrough Award

- Investigators at all academic levels (or equivalent)
- Postdoctoral fellows are eligible to apply
- Supports promising research that has the potential to lead to or make breakthroughs in breast cancer.
- Potential impact of the research may be near-term or long-term, but it must be significant and go beyond an incremental advancement.
- Partnering PI Option allows two PIs, termed Initiating and Partnering PIs, to collaborate on a single application.
- Four different funding levels, based on the scope of research, are available. It is the responsibility of the PI to select the funding level that is most appropriate for

Employment Opportunities

Success in any clinical research endeavor, but especially in cancer research, requires the most qualified, dedicated staff, committed to excellence and the mission of Yale Cancer Center. The combination of education, oncology research experience, and exceptional nursing skills is enormously difficult to find. Your participation, as knowledgeable colleagues, is invaluable at this time.

Should you know individuals with outstanding clinical research nursing experience, and who are ready to join our team, please direct resumes to [Sandra Greer](#), Sr. Staffing and Career Development Representative or call (203) 432-5822. All referrals will be held in strictest confidence.
