Center for Interdisciplinary Research on AIDS
at Yale University

CIRA Presents:

Qualitative Research Discussion Group

**Join CIRA for another discussion
on the qualitative research process.**

**“Disseminating Research
to Participants & Other
Community Members: A
Group Discussion”**

Alana Rosenberg
*SEICHE Center for Health and
Justice, Yale University*

**Friday, September 16, 2022
12:00 pm – 1:30 pm**

Contact Lauretta.Grau@yale.edu with questions.

Organized by the Interdisciplinary Research Methods Core of the Center for Interdisciplinary Research on AIDS (CIRA). CIRA is supported by National Institute of Mental Health Grant No. P30MH062294, Trace Kershaw, Ph.D., Principal Investigator.

Qualitative Research Discussion Group (QRDG)

Alana Rosenberg, SEICHE Center for Health and Justice, Yale University

Alana Rosenberg is project manager at the SEICHE Center for Health and Justice, where she manages qualitative research projects aimed at understanding cancer diagnosis and care during and after incarceration, and COVID mitigation in prisons and jails. Previously she managed two projects funded by the National Institute of Health on the impact of mass incarceration on health at the Yale School of Public Health: the Justice, Housing & Health Study (JustHouHS) and Structures, Health, and Risk Among Reentrants, Probationers & Partners (SHARRPP). She started her career at Yale at the Center for Interdisciplinary Research on AIDS after receiving her MPH from Columbia's Mailman School of Public Health in 2001. She is particularly interested in qualitative and participatory research methods aimed at better understanding structural causes of health inequities.

QRDG Overview:

The goal of the Qualitative Research Discussion Group (QRDG) is to provide opportunities for individuals involved in qualitative or mixed-methods research to meet regularly to discuss the qualitative research process and potentially problem-solve issues that may arise when engaged in qualitative research. Discussion topics include, but are not limited to: logistics, data management, analysis, dissemination, role of the researcher, and ethics. It is intended as a venue for discussing research in progress and new or relevant literature on qualitative methods and practice as well as to create networking opportunities and foster research collaborations. CIRA's Interdisciplinary Research Methods (IRM) Core member, Laretta Grau, PhD, is coordinating the meetings. She can be reached at lauretta.grau@yale.edu.
