Presented by: Yale School of Medicine - Department of Pediatrics and School of Public Health

Dorothy M. Horstmann Lectureship

Progress in Viral Diagnosis & Impact on Patient Care: From Vaguely Interesting to Vitally Important

3/16/2022 12:00:00 PM – 3/16/2022 1:00:00 PM | Medical Campus

The Pediatric Subspecialty Lecture series is a multidisciplinary series. The series includes one hour lectures and case presentations that update our pediatric subspecialist physicians, learners and other healthcare professionals on cutting edge biomedical sciences, clinical and educational practices, presenting this information in an understandable and clinically useful format, that informs the health care delivery and improves outcomes of children and adolescents. Pediatric Subspecialty lecture topics are varied.

Texting code for today’s session: 29717

Faculty:

Marie-Louise Landry, MD
Professor of Laboratory Medicine and Medicine (Infectious Disease)
Director, Clinical Virology Laboratory
Vice Chair, Laboratory Medicine
Yale University

Program Goal:

1 Appreciate the dramatic changes in diagnostic virology
2 Understand the drivers of these changes
3 Recognize the impact of diagnostic virology on patient care

Target Audience: Pediatrics

Financial Disclosure Information:

Marie L. Landry, MD: None

Accreditation Statement: Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Designation Statement: Yale School of Medicine designates this Live Activity for a maximum of 1.00 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.
