DR. CHARLES R. ROGERS

ASSISTANT PROFESSOR IN THE DIVISION OF PUBLIC HEALTH
AT THE UNIVERSITY OF UTAH SCHOOL OF MEDICINE

“The Influence of the Social Determinants of Health Iceberg on Colorectal Cancer Disparities among Men of African Descent”

Biography: Charles R. Rogers, PhD, MPH, MS, CHES® currently serves as a tenure-track Assistant Professor in the Department of Family & Preventive Medicine at the University of Utah’s School of Medicine. In addition to serving as Founding Director of his Men’s Health Inequities Research Lab, Dr. Rogers is also an Associate Member of Huntsman Cancer Institute. As a behavioral scientist and certified health education specialist (CHES®), Dr. Rogers’ research agenda contributes to translational solutions that address the complex underpinnings of inequalities in men’s health, with a current focus on colorectal cancer prevention among African-American men. His research foci also include cancer health disparities, behavioral & community-based implementation science, mixed methods, and survey methodology. As an emerging cancer health equity leader, Dr. Rogers has shared his knowledge across East Africa, Japan, North America, Jamaica, and also via a number of venues including newspapers, radio stations, national conferences, minority health fairs, and television.
