

EPIC Ambulatory COVID-19 Ordering, FYI, Banners, and Patient Header

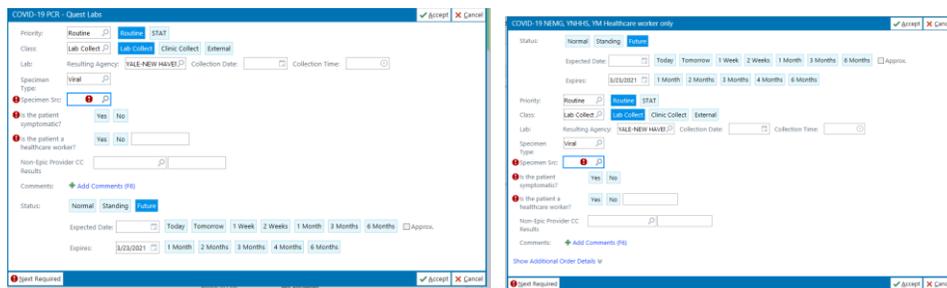

With the recent outbreak of COVID-19 and needing users aware of testing for patients some recent changes have been communicated to notify staff caring for the patients. The below workflow outlines how testing will be performed by way of a consult.

Placing order for Testing

1. From 'Add Order' enter COVID. Under 'After Visit Procedures' you will see an orders for COVID-19 Testing. If for a NEMG, YNHHS, YM Healthcare worker highlight that order and click accept. For all other patients highlight the 'Quest Labs' test and click accept.

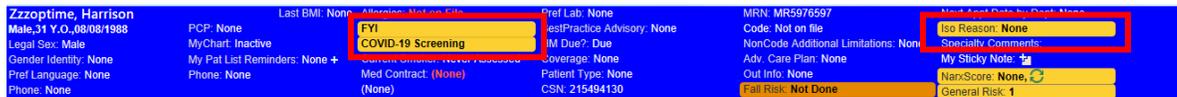

2. Next complete the information within the order as shown below. Associate and then Sign the Order.

3. Once order is placed and signed the header will turn blue indicating that the patient has testing in progress.

*** Note once the order is released the ISO Reason will update to 'R/O COVID-19'. A FYI Flag was also applied as well.

Prior to Release of Order

After Order Released

Patient has Results (NEGATIVE)

1. When patient receives a result 'Not Detected' the following will happen:
 - a. Once the chart has been opened the header will not be blue anymore and the iso reason will be removed as well as the FYI Flag shown below.

Patient has Results (POSITIVE)

1. When patient receives a result 'Detected' the following will happen:
 - a. The header will remain blue. The iso reason will update to 'COVID-19' and FYI Flag will have a 'COVID-19 Positive' and the in process is inactive.

Date and Time	Contact	User	Type	Summary	Status
03/23/20 2:14 PM		Dewitt, Michelle	COVID-19 Positive	Patient has tested "Positive" for COVID-19	Active
03/23/20 2:13 PM		Dewitt, Michelle	COVID-19 Screening	COVID-19 Screening in Process	Inactive
