eReg System Upgrade Notification

Dear eReg Users

You are receiving this notification because you currently have an active Regulatory Manager, Regulatory Coordinator or Multi-Site User Role in eReg. On Thursday, 5/5, our eReg production environment was upgraded from version 2021R3 to version 2022R1. Multiple new features are now available for use in eReg.

New Feature Highlights include:

eReg 2022R1	
Area:	Change:
Protocols	Choose to file inbox documents as a version of an existing document. This is useful for better organizing documents such as protocol amendments and consent versions.
Review Sessions	Add a multi-site filter to the Review Sessions landing page.
Electronic Signatures	Only include the total number of overdue documents and the total number of documents requiring signatures that aren't due yet in the digest notification email so that it can be more easily reviewed at a glance.
Electronic Signatures	Include the document name on the signature page of signed documents for context.
Electronic Signatures	Clarify that a document with a placed signature was signed using eReg by including the text "in Advarra eRegulatory."
Reports	Allow the Missing Protocol Documents report and the Electronic Signature Status for Protocol Documents report to be run for multiple protocols at a time.
Reports	Include participating site information in the Expiring Protocol Documents and Document Upload Details reports.

Please log into eReg and visit the Learning Portal > Release Highlights to learn more:
https://ereg-docs.forteresearch.com/index.php/Release_Highlights
(you must be logged in to eReg to view this page)

If you have questions regarding use of any new features or workflows, please contact eReg.support@yale.edu
