Therapeutic Radiology Grand Rounds

Evolution of HIV and Cancer Risk and Mortality in the Combination Antiretroviral Era: Impact of Persistent Immune Dysfunction

9/29/2022 9:00:00 AM–9/29/2022 10:00:00 AM | Medical Campus

Weekly grand rounds are necessary and essential to the educational mission of the department for trainees and faculty members to update them on the latest developments as well as a forum for discussion on the latest cases to promote group input.

Texting code for today's session: 34767

Faculty:

Brinda Emu, MD
Associate Professor of Internal Medicine (Infectious Diseases)

Program Objective(s):

- 1 Understand the changing epidemiology of HIV-associated cancer
- 2 Understand the impact of HIV replication and treatment on cancer incidence and outcome.
- 3 Understand how HIV impacts the immune system and potential implications for cancer progression.

Target Audience: Oncology
