Inside Yale Cancer Center

**December 20, 2019**

## Announcements

### Chief Patient Experience Officer Named

Tara Sanft, MD, Associate Professor of Medicine (Medical Oncology) and Director of the Smilow Cancer Hospital Survivorship Clinic, has been appointed the inaugural Chief Patient Experience Officer for Smilow Cancer Hospital. In this new role, Dr. Sanft will work closely with the Chief Medical Experience Officer for YNHHS and Yale Medicine, Dr. Alan Friedman, and the Chief Experience Officer for YNHHS and Yale Medicine, Joan Kelly, to continue to build on our exceptional patient- and family-centered environment at Smilow Cancer Hospital. Moreover, Dr. Sanft will also focus on the provider experience to build an efficient practice environment and to foster a culture of wellness. Dr. Sanft's background as a provider of care through the Breast Center and as Medical Director of our Survivorship Clinic, where she consults with patients with a variety of diagnoses, gives her a unique perspective on the patient experience and will help to inform her new role.

**Sarah Mougalian  
Appointed Deputy  
Chief Ambulatory  
Officer**

Sarah Mougalian, MD, Assistant Professor of Medicine (Medical Oncology), has been appointed the inaugural Deputy Chief Ambulatory Officer of Smilow Cancer Hospital. Dr. Mougalian will provide leadership and contribute to the optimal management of clinic and infusion center operations within Smilow Cancer Hospital in her new role. Working with the Chief Ambulatory Officer, Dr. Benjamin Judson, and our nursing and administrative leadership, Dr. Mougalian will oversee outpatient operations with the aim of improving operational efficiency, space utilization, patient access and quality of patient care, while ensuring clinician and staff input and engagement. In addition, Dr. Mougalian will provide medical leadership for the Smilow Oncology Extended Care Clinic. Throughout her tenure at Smilow Cancer Hospital and Yale Cancer Center, Dr. Mougalian has been an exemplary clinician, clinical investigator, and medical educator, who has been committed to optimizing cancer care delivery. We look forward to Dr. Mougalian's efforts to advance innovation in our ambulatory services across the hospital.

Community Engagement and Health Equity (CEHE) within Yale Cancer Center and Smilow Cancer Hospital. The new Center will be grounded by 5 foundational pillars: Analytics; Community Engagement; Screening and Prevention; Clinical Trial Participation; and Expansion of Catchment-Focused Research.

**Beth Jones, PhD, MPH**, Research Scientist and Lecturer in Epidemiology, will serve as **Associate CEHE Director for Community Engagement** overseeing engagement and outreach across Connecticut to partner with local communities on community-focused interventions and solutions. **Xavier Llor, MD, PhD**, Professor of Medicine, Co-Director of the Smilow Cancer Genetics and Prevention Program, and Medical Director of the Smilow Screening & Prevention Program, has been appointed as **Associate CEHE Director for Cancer Screening**. In this new position, Dr. Llor will systemize risk stratification processes to ensure consistency throughout Smilow Cancer Hospital and our Care Center delivery Network, and he will direct screening services across the health system and in the community settings. **Andrea Silber, MD**, Associate Professor of Clinical Medicine (Medical Oncology) has been named **Associate CEHE Director for Clinical Research**. Dr. Silber is a leader in clinical trial engagement among underserved and under-represented minorities, personal relationship building, and designing patient navigator programs. Through her continued leadership and expansion of the OWN IT (Oncologists Welcome NewHaven Into Trials) Program, Dr. Silber will continue to expand clinical trial participation across the region and build a dedicated team of community-based patient navigators.

## Notables

Congratulations to Yale Cancer Center's **Ranjit Bindra, MD, PhD**, Associate Professor of Therapeutic Radiology, and **Peter Glazer, MD, PhD**, Robert E. Hunter Professor and Chair of Therapeutic Radiology and Professor of Genetics, both winners at this year's Pitchfest for "Best Presentation" and "Highest Potential Impact," respectively. Their science was recognized during the annual competition sponsored

Join Smilow Cancer Hospital on Facebook

### Latest Posts:

Nearly 1,000 employees and their family members joined us to celebrate the holiday season at the Yale Peabody Museum of Natural History last week and toast to 10 years of Smilow Cancer Hospital! Here are a few photos of the gorgeous celebration among the Peabody's dinosaurs and exhibits.

by Yale's Office for Cooperative Research.

**Don Nguyen, PhD**, Associate Professor of Pathology, Assistant Cancer Center Director for Research Development, and a member of Yale Cancer Center's Cancer Signaling Networks Research Program, has been awarded a renewal to his R01 from the NIH to study mechanisms of lung cancer lineage heterogeneity and metastasis. The grant provides \$1,1187,500 direct; \$1,989,065 total funding.

## Employee Profile: Camilla Schott

Camila Schott's role as Senior Administrative Assistant at Yale Cancer Center is different than most administrative positions, in that she supports faculty that are not in the same physical location as her. Working with half of the Smilow Cancer Hospital Care Center physicians means that there are a lot of logistical matters to overcome. She supports our physicians in the Derby, Torrington, Waterbury, North Haven, Orange, and Greenwich Care Centers.

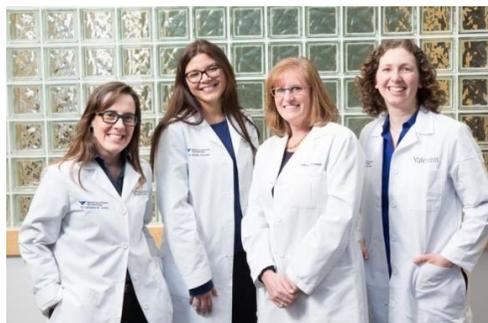

When a new faculty member is hired, Camila provides support for their onboarding. She handles tasks both large and small, from making sure the correct privileges are in place for a physician to see patients at a certain hospital, to ordering lab coats, and business cards. Camila also supports Kevin Vest, MBA, FACHE, Deputy Director, Finance and Administration, Yale Cancer Center.

Camila commented that she often sees

At the American Society of Hematology meeting earlier this week, Yale Cancer Center researchers shared promising new treatment outcomes for patients with myelodysplastic syndromes (MDS).

correspondence from patients praising the Cancer Center. "Every day I think about the impact we can have on people's lives. Everyone plays their part, no matter how small, and I am so fortunate to be part of such an amazing team that enables me to play my role," said Camila.

In the two years since Camila joined Yale Cancer Center, she has overseen the onboarding of over 10 physicians and provided support to the Clinical Trials Office as well as the Director's Office. Anna Raso, Administrative Services Supervisor, commented, "Camila is the definition of a team player. She is always willing to help in every situation and is constantly looking for ways to improve efficiencies in the office. She is a rock star and we are so lucky to have someone with her energy and drive on our team."

Mr. Vest commented, "Camila is a shining example of customer service. Whether she is following through on a project with me, helping a lost visitor who wanders into our office suite, or navigating one of our faculty through a difficult administrative challenge, she does it with a smile and kindness."

## YCC #OOTB Thanks

YCC #OUTOFTHEBLUETHANKS recently recognized the following employees from the Yale Cancer Center administrative team: Dina Ardito, Senior Administrative Assistant; Chloé Jones, Senior Administrative

A new Yale Cancer Center study shows that Artificial Intelligence (AI) can help radiologists find microscopic evidence of advancing head and neck cancer. "We feel this tool is just one example of how deep learning can help clinicians provide more personalized treatment for patients," explained Sanjay Aneja, MD.

Assistant; Amelea Lowery, Senior Administrative Assistant; Michele Messina, Senior Administrative Assistant; Marion Miller, Administrative Assistant; Camila Schott, Senior Administrative Assistant.

This team was praised by a colleague for being true team players when she needed help during the recent Fellowship and Physician Scientist Residency interview season. With multiple candidates on each interview day, this group offered their time and support to help guide applicants, secure meeting locations, set up catering, and triage any issues that came up throughout the process to ensure they had their best experience at Yale possible. Thank you, all-your willingness to support your colleagues is admirable and appreciated!

YCC #OUTOFTHEBLUETHANKS recently recognized Christal Esposito, a Program Coordinator for Research Affairs. After a recent renovation to update the break room in her work area, Christal's creativity helped bring the project to completion with some perfect finishing touches. From flowers on the tables to delightful wall décor, including a framed Close to Free jersey, Christal's additions created a fresh and welcoming environment for her colleagues. Thank you, Christal!

*Yale Cancer Center's #OOTBTHANKS program is a staff recognition initiative to show appreciation to employees who have exemplified an above-and-beyond effort or an outstanding*
