

Special Seminar:
**“The Nexus of Climate Change, Disasters
and Human Health”**

Dr. Samendra Sherchan

Associate Professor - Department of Environmental Health Sciences
School of Public Health and Tropical Medicine
Tulane University

Dr. Sherchan serves as Program Director for the MS in Environmental Health Sciences and Director of the Tulane Water Quality Laboratory. He received his PhD from the Department of Soil, Water and Environmental Science at the University of Arizona. His research interests include climate change and public health, infectious disease epidemiology, emergency preparedness, and water reuse, sanitation, and hygiene in developing countries. Over the past 10 years, he has gained considerable experience working with communities affected by climate change and natural disasters. He currently serves as an Associate Editor for the Journal of Water and Health and BMC Infectious Diseases. He is also on the editorial boards of ACS Water and Science of the Total Environment.
