Addressing Social Determinants and Health-Risk Behaviors to Reduce Cancer Burden and Eliminate Cancer-Related Disparities

## Hermine Poghosyan, PhD, MPH Associate Professor, Yale School of Nursing

**Needs:** Although national, state, and local governments have given increased attention to health disparities in recent years, the progress in reducing and eliminating health disparities is not substantial. **Objectives:** Describe the prevalence of lung cancer screening among adults at high risk for developing lung cancer. Discuss challenges and opportunities for tobacco treatment among adults with a history of cancer diagnosis

There is No Corporate Support for These Activities. Accreditation: The Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
