Head, Section of Benign Gynecology

Program Director, Fellowship in Minimally Invasive Gyn Surgery

Cleveland Clinic

Cleveland, OH

“Current State of Morcellation and Techniques to Tissue Extraction”

There is no corporate support for this activity

Course Director/Host: Lubna Pal, MBBS, FRCOG, MS, FACOG

Thursday, October 24, 2019, 4:00PM-5:00PM

Brady Auditorium, 310 Cedar St

LEARNING OBJECTIVES:

At the conclusion of this talk, the attendees will be able to:

1. Articulate proper preoperative evaluation for patients undergoing surgery for fibroid uterus and list risk factors for leiomyosarcoma;
2. Conduct thorough pre-operative patient counseling regarding risks of disseminating occult uterine malignancy, and
3. Demonstrate techniques to safe morcellation for tissue extraction in minimally invasive procedures.

NEEDS ASSESSMENT:

Since the FDA warning statement against the use of power morcellation during a hysterectomy or myomectomy, the number of open procedures have increased. Because of the increased morbidity associated with open procedures, the gynecologic surgeon should be aware of the risk factors for occult uterine malignancy, conduct a proper pre-operative evaluation and patient counseling for women undergoing surgery for fibroids.

TARGET AUDIENCE

ObGyn attending physicians, house staff/fellows, medical students, nurses, PA's, community Ob/Gyn's, residents, midwives, nurses and researchers.

DESIGNATION STATEMENT

The Yale School of Medicine designates this live activity for 1 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

ACCREDITATION:

The Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

CME CREDIT:

The Yale School of Medicine designates this live activity for 1 AMA PRA Category 1 Credits[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.
