

Digestive Diseases Research Seminar
*Presented by Yale School of Medicine,
Department of Internal Medicine, and Section of Digestive Diseases*

Deciphering Epithelial Signals in the Liver to Drive Inflammation and Fibrosis

Dean Yimlamai, MD, PhD

Assistant Professor of Pediatrics and Director of Pediatric Hepatology Research, Yale School of Medicine

Tuesday, November 9, 2021

5:00 - 6:00 pm

<https://zoom.us/j/96842035706?pwd=TEJzYTJOT3EyaW1sclRuVUhqcmlrQT09>

Host: Mario Strazzabosco, MD, PhD

Course Directors: Yasuko Iwakiri, PhD and Joseph Lim, MD

To record your attendance to this activity, text the Activity Code (29421) to 203-442-9435.

There is no corporate support for this activity. Accreditation: The Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. **Target Audience:** YSM faculty, fellows, nurses, residents, medical students, staff, and other health care providers. **Designation Statement:** The Yale School of Medicine designates this live activity for 1 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim the credit commensurate with the extent of their participation in the activity. **Needs assessment:** The development of liver fibrosis in the context of chronic liver injury is incompletely understood and currently remains without a specific therapy. The role of the Hippo pathway in stimulating fibrosis is becoming well recognized, but it appears to play disparate roles in the various liver cell types. Here, we will discuss inactivation of the Hippo pathway in hepatocytes as an injury response mechanism which leads to inflammatory cell recruitment and fibrotic deposition. **Objectives:** Update on our Current understanding of liver fibrosis development; Develop an understanding of the importance of Yap/Taz, the Hippo pathway, their regulation in driving liver fibrosis; Discuss signaling molecules that epithelial cells use to remodel the microenvironment. **Faculty Disclosures:** Faculty for this educational activity, have no relevant financial relationship with ineligible companies to disclose. It is the policy of Yale School of Medicine, Continuing Medical Education, to ensure balance, independence, objectivity, and scientific rigor in all its educational programs. All faculty participating as speakers in these programs are required to disclose any relevant financial relationship(s) they (or spouse or partner) have with a commercial interest that benefits the individual in any financial amount that has occurred within the past 12 months; and the opportunity to affect the content of CME about the products or services of the commercial interests. The Center for Continuing Medical Education will ensure that any conflicts of interest are resolved before the educational activity occurs. **This course will fulfill the licensure requirement set forth by the State of Connecticut.**
