

# Yale SCHOOL OF PUBLIC HEALTH

## *Center on Climate Change and Health*

---

### **Links between Wildfires, Air Pollution, and Health under a Changing Climate**

#### **Dr. Michelle Bell**

Mary E. Pinchot Professor of Environmental Health  
Yale School of the Environment

Professor Bell's research investigates how human health is affected by atmospheric systems, including air pollution and weather. Other research interests include the health impacts of climate change and environmental justice. Much of this work is based in epidemiology, biostatistics, and environmental engineering. The research is designed to be policy-relevant and contribute to well-informed decision-making to better protect human health and benefit society. She is the recipient of the Prince Albert II de Monaco / Institut Pasteur Award, the Rosenblith New Investigator Award, and the NIH Outstanding New Environmental Scientist (ONES) Award. She was elected to the National Academy of Medicine in 2020.

**Online via Zoom**
