Qualitative Research Discussion Group (QRDG)

Penelope Schlesinger, MPH, Yale School of Public Health
Penelope is the Lab Manager for the Housing and Health Equity Lab. She has worked on a variety of research projects that examine structural inequalities and health disparities. She is interested in the promotion of social justice.

QRDG Overview:
The goal of the Qualitative Research Discussion Group (QRDG) is to provide opportunities for individuals involved in qualitative or mixed-methods research to meet regularly to discuss the qualitative research process and potentially problem-solve issues that may arise when engaged in qualitative research. Discussion topics include, but are not limited to: logistics, data management, analysis, dissemination, role of the researcher, and ethics. It is intended as a venue for discussing research in progress and new or relevant literature on qualitative methods and practice as well as to create networking opportunities and foster research collaborations. CIRA's Dissemination Implementation Science and Methods (DISM) Core member, Lauretta Grau, PhD, is coordinating the meetings. She can be reached at lauretta.grau@yale.edu.
