Director, Center for Cancer & Immunology Research  
Children’s National Research Institute

**Tuesday, December 7, 2021**

**4:00 – 5:00pm**

**Seminar by Zoom**

**CME credit: Text 28989 to 203-442-9435**

### **ACCREDITATION**

The Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

### **TARGET AUDIENCE**

The target audience for the HTI Seminar Series comprises attending faculty, clinical and basic scientists, community physicians, nurses, residents, fellows, and students.

### **NEEDS ASSESSMENT**

The HTI Seminar Series seeks to review the scientific basis for choice of immunologically related therapeutic targets in various diseases, including organ-specific and systemic autoimmunity, allergy, transplant rejection, cancer, and infectious diseases. The goal is to help understand the rationale and mechanism underlying the major pharmacologic approaches for interventional immunology in current practice and review the data on the different therapeutic approaches in different specialties.

### **LEARNING OBJECTIVES**

At the conclusion of this activity, participants will be able to:

1. Understand the differences between antigen-specific T cells and CAR-T cells.
2. Appreciate the advantages of multi-antigen specific T cells and NK cells as “off the shelf” therapeutics.

3. Increase their knowledge regarding the applications of multi-antigen specific T cells from blood cancers to solid tumors.

### **DESIGNATION STATEMENT**

The Yale School of Medicine designates this live activity for 1 AMA PRA Category 1 Credit(s)<sup>™</sup>. Physicians should only claim the credit commensurate with the extent of their participation in the activity.

### **FACULTY DISCLOSURES**

**Catherine Bollard:** Available upon request
