

Yale SCHOOL OF MEDICINE

Department of Anesthesiology

4th Annual

Celebration of Research

Dr. George Mashour, MD PhD

The Bert N. LaDu Professor of Anesthesiology Research and Professor of Anesthesiology, Neurosurgery and Psychology, Associate Dean for Clinical and Translational Research will keynote the event.

**Consciousness Symposium September 20th
in the Brady Memorial Auditorium 2:00-4:00 pm**

“Changing Consciousness: What Can Conditions of Altered Consciousness Tell Us About Its Ontology?”

The Panel will feature the following Speakers

George Mashour (Associate Dean, Univ of Michigan Medical School):
Controversial Correlates of Consciousness.

Hal Blumenfeld (Professor of Neurology, Neurosurgery, and Neuroscience): The study of seizure disorders and what it might tell us about the nature of consciousness.

Fahmeed Hyder (Professor of Radiology and Biomedical Imaging; Director QNMR Core): Consciousness on the basis of brain energetics.

**Department Research Celebration September 21st
at the Blake Hotel, 9 High Street, New Haven 8:00 am – 1:00 pm**

Dr. Mashour will again speak at the Anesthesiology Department Research Celebration on the topic of “Anesthetizing Photons: Consciousness, Anesthesia, and Quantum Physics.” Along with Dr. Mashour, the Anesthesiology Research Celebration (8:00 am – 1:00 pm) includes a day of activities at the Blake Hotel, 9 High Street, New Haven, featuring moderated poster sessions and oral presentations from faculty and trainees covering major academic foci of the department including projects within the neurosciences, vascular biology and clinical trials.

Department of Anesthesiology Celebration of Research September 20st & 21st
